Turbo the Force — Igniting Pure Passion & Riding Soul

Returning to the prestigious international stage of EICMA, SYM proudly unveils the theme for the year: **"Turbo the Force."** Powered by relentless innovation, SYM transforms every movement into an unforgettable experience—seamlessly fusing state-of-the-art automotive engineering with raw, unfiltered human emotion.

Moving far beyond mere urban transit, SYM's latest lineup redefines two-wheeled mobility. To live life to the fullest in motion, creating the rhythm of every heartbeat—with every single twist of the throttle, we spark pure excitement and anticipation, capturing every second of emotion along the open road to forge an intense, direct connection between machinery and the rider's soul.

From groundbreaking **turbocharged performance** and refined **tailored menswear aesthetics** to rugged **adventure upgrades** and **fighter-jet inspired sport dynamics**, SYM delivers a various model of high-performance scooters engineered to ignite passion for every road ahead.

MAXSYM TURBO

SYM proudly introduced flagship concept scooter, the **MAXSYM TURBO-"The Gladiator"**. Breaking away from traditional maxi-scooters focused solely on comfort and commuting utility, the new-generation MAXSYM represents an extension of rider capability and willpower. Designed around the concept of the ancient Roman Gladiator, the MAXSYM TURBO unites Strength, Protection, Control, and Agility into an uncompromising performance machine.

Gladiator Muscularity and Armor Aesthetics

The visual identity of the MAXSYM TURBO draws inspiration from the muscular physique and aggressive fighting stance of ancient gladiators:

- **Dynamic Stance & Body Lines**: Sculpted body features continuous fluid surface muscle lines paired with a low center of gravity and a forward-leaning stance, mimicking a warrior holding weapons ready to strike.
- **Combat Helmet Front & Blade Position Lights**: Inspired by a gladiator's combat helmet, the front panel is paired with sharp, blade-like position lights to project a fierce and aggressive gaze.
- **Spearhead LED Taillight & Armor**: The rear section sharply into an angular space, placing a signature spearhead LED taillight. High-contrast accent color panels complete the look, transforming outer fairings into protective armor.

Powertrain Innovation: Over 40% Torque Boost & 0–100 km/h in Under 5.7 Seconds

- **465 cc Turbocharged Parallel-Twin Engine**: Powered by a 465 cc liquid-cooled parallel-twin DOHC 8V engine integrated with a compact turbocharger and a high-efficiency intercooler.
- **Over 40% Torque Boost**: Delivers an earlier torque peak and a wide torque plateau, boosting maximum torque by over 40%.
- **650 cc-Class Acceleration**: Sprinting from 0 to 100 km/h in less than 5.7 seconds, the MAXSYM TURBO matches the acceleration of 650 cc motorcycles, unleashing supercar DNA hidden within a scooter's soul.
- **Motorbike-type Engine mounting**: Optimized front-to-rear weight distribution ensures exceptional stability at high speeds, while delivering razor-sharp handling and steering responsiveness.

Flagship Rider Assistance & Smart Technology

To complement its high-performance powertrain, the MAXSYM TURBO comes fully equipped with modern rider assistance technology and connectivity:

- **Advanced Safety & Electronics**: Ride-by-wire system, Cornering ABS, and Cornering TCS (Traction Control System).
- **Comfort & Touring Features**: Cruise Control and an Electric Windscreen.
- **Display & Connectivity**: A 7-inch TFT display with SYM+ app.

The MAXSYM TURBO establishes a bold new benchmark for high-performance maxi-scooters, combining warrior-inspired design with cutting-edge turbo technology.

MODEL	**MAXSYM TURBO**
ENGINE	
ENGINE TYPE	2-cylinder, Liquid-cooled
	4-stroke, DOHC, 8-valve, Turbocharger
DISPLACEMENT	465 c.c.
BORE x STROKE	Ø 65 x 70 mm
MAXIMUM POWER	39.0 kW / 6,500 rpm
MAXIMUM TORQUE	58.9 Nm / 5,500 rpm
FUEL SYSTEM	E.F.I.
TRANSMISSION	C.V.T.
CHASSIS	
FRONT SUSPENSION	Upside-down Fork
REAR SUSPENSION	Single-sided Mono-shock with Multi-link
FRONT BRAKE	Double Disc Ø 288 mm + ABS
REAR BRAKE	Disc Ø 275 mm + ABS
FRONT TYRE	120 / 70 - 15
REAR TYRE	160 / 60 - 15
DIMENSIONS	
OVERALL LENGTH	2,192 mm
OVERALL WIDTH	902 mm
OVERALL HEIGHT	1,383 - 1,507 mm
SEAT HEIGHT	790 mm
WHEEL BASE	1,543 mm
FUEL TANK CAPACITY	16 L

ADX TG

Elevate Your Ride. Conquer Your Next Horizon

The highly anticipated adventure scooter has officially launched its latest upgrade, bringing a perfect synergy of rugged off-road capability, smart technology, and premium utility. Tailored for urban commuters and weekend explorers, the model change introduces substantial enhancements across three categories: **Rugged Stance, Functional Upgrade, and User-Oriented Design**.

Rugged Stance: A Bold, Premium Aesthetic

The upgraded model makes a powerful visual statement with an all-new metallic silver & red color scheme, where the graphics feature side-profile mountain contour lines and abstract geometric shapes to blend rugged terrain with urban rationality. This striking intersection highlights ADXTG's versatile mobility across city streets and wild trails, while ensuring it performs as good as it looks with the new addition of tubeless wire-spoked wheels that deliver classic off-road aesthetics.

Functional Upgrade: Advanced Technology & Touring Essentials

- **5" TFT Display**: Features three UI style options and an automatic day/night mode, seamlessly integrated with SYM+ APP to keep riders connected and on course.
- **Integrated Safety Recording**: Offers a massive safety boost with pre-installed front and rear cameras as standard to record every moment of the journey.
- **Modern Charging Connectivity**: Equipped with a standard, high-speed Type-C USB charging port for modern devices.
- **For Long-distance Touring**: Fully unlocks long-distance touring capabilities straight out of the box, featuring a rear rack with pre-drilled side case mounting holes and a standard aluminum top case.

User-Oriented: Engineered for Rider Comfort and Protection

Designed with the rider's daily needs in mind, the upgrade adds a convenient parking brake for stability on steep inclines, and heated grips to tackle freezing morning commutes or high-altitude chills. Trail protection is also significantly enhanced, featuring a front upside-down fork protector to shield the suspension from debris, and crash bars and protectors as standard to minimize damage from accidental tips or falls.

MODEL	ADXTG 400
ENGINE	
ENGINE TYPE	1-cylinder, Liquid-cooled 4-stroke, OHC, 4-valve
DISPLACEMENT	399 c.c.

HD

Your High-End Design on Wheels

Conceptualized as **"A Tailored Suit on Wheels,"** the HD integrates formal menswear tailoring aesthetics with modern urban mobility, offering an effortless, refined, and confident riding experience across European city streets.

SANYANG MOTOR CO., LTD.
3 Chung Hua Road, Hukou, Hsinchu, Taiwan R.O.C.
T 886-3-598-1911
F 886-3-597-0712
W www.sym-global.com

High-end Design

The SYM HD 200 reinterprets classic menswear tailoring into a powerful two-wheeled form:

- **The V-Shaped Lapel & Structured Shoulders**: The geometric lines sculpting the front shield and headlight mirror the sharp V-neck lapels of a premium suit. Outward-extending integrated handguards replicate the bold, structured shoulders of a blazer, giving the front profile a commanding stance on the street.
- **Tuxedo Tailcoat Taillight**: The taillight takes inspiration from the back of a formal tuxedo tailcoat, harmonizing classic elegance with modern LED illumination.

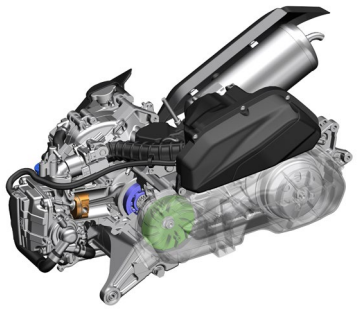

New-gen Liquid-Cooled Engine

Engineered for superior output and endurance, the HD 200 is powered by a new-generation liquid-cooled engine delivering **max power exceeding 12 kW** and **max torque of 16 Nm**:

- **Integrated Thermostat:** Allows the engine to reach and maintain its optimal operating temperature quickly, maximizing fuel efficiency while reducing emissions.
- **Low-Friction Eco-Tech:** Utilizes multiple loss-reduction components—including low-tension piston rings, low-friction bearings, and MoS_2-coated pistons—to minimize internal engine drag and maximize power delivered directly to the wheel.
- **Optimized CVT Cooling:** Incorporates a reverse-fan drive face to improve transmission cooling efficiency, significantly reducing ventilation resistance for highly efficient power transfer.

W www.sym-global.com

Flagship Safety Suite: Dual-Channel ABS + TCS & Full LED Lighting

To ensure complete rider control on wet or unpredictable road surfaces, the HD 200 comes equipped with front and rear disc brakes paired with a dual-channel ABS and TCS (Traction Control System). A built-in side stand safety switch further safeguards against accidental starts when parked.

Intelligent Rider Tech & Convenience

- **5-Inch Full-Color TFT display**: Features automatic brightness adjustment, 3 selectable UI layouts, and day/night viewing modes for crystal-clear legibility even under direct sunlight.
- **SYM+ App Integration**: display Google Maps, incoming calls,and message alerts directly on the dashboard.
- **Front Dashcam as standard:**
  Capture the road ahead seamlessly. Collision emergency mode **can be set** to prevent video overwriting, plus built-in Wi-Fi for instant smartphone viewing and downloads via app.
- **Smart Convenience**: Equipped with a Keyless system, charging ports (USB 3.0 + Type-C), and 8.2L fuel tank, and a front fuel inlet for quick refueling without lifting the seat.

First-Class All-Weather Riding Comfort

Designed for long-distance touring and cold-weather commuting, the HD 200 features a comprehensive weather protection system:

- **3-Piece Urban Commuter Package**: Includes a tall windshield to block wind, a meter visor to prevent display glare, and handguards to protect hands and brake levers in tight traffic.
- **Two-Stage Heated Grips**: Easily operated via a left handlebar switch with a 1st-stage green indicator (40°C) and a 2nd-stage red indicator (50°C) to keep hands warm in winter.

JET X

The Fighter Jet Reborn

The All-New JET X Achieves a Radical Transformation

Inheriting a market-proven racing legacy and racetrack dominance, the all-new JET X officially arrives with an aggressive, fighter-jet-inspired design, massive convenience upgrades, and a next-generation liquid-cooled engine. From its signature "X" wing lighting and integrated front dashcam to a high-tech smart cockpit and comprehensive electronic rider aids, the new JET X delivers the ultimate fusion of premium fighter-jet aesthetics and everyday riding practicality.

Design Concept & Aesthetics

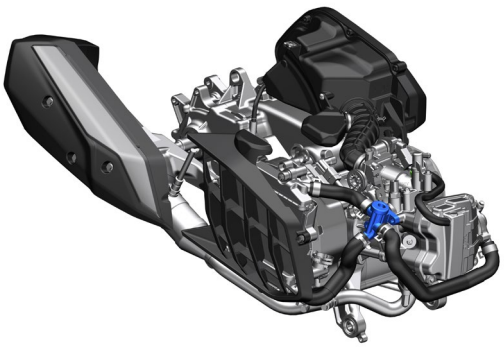

The "X" lighting seamlessly integrates a dashcam into its aggressive 3D front design, paired with a lightweight tail and aerodynamic interior ducts with 3D fins to deliver an ultimate sporting personality.

New-gen Liquid-cooled engine

The new Jet X is equipped with a next-generation liquid-cooled engine designed for maximum fuel efficiency, driven by three key upgrades.

- **Integrated Thermostat**: Allows the engine to reach and maintain its optimal operating temperature quickly, maximizing fuel efficiency while reducing emissions.
- **Low-Friction Eco-Tech**: Utilizes multiple loss-reduction components—including low-tension piston rings, low-friction bearings, and MoS_2-coated pistons—to minimize internal engine drag and maximize power delivered directly to the wheel.
- **Optimized CVT Cooling**: Incorporates a reverse-fan drive face to improve transmission cooling efficiency, significantly reducing ventilation resistance for highly efficient power transfer.

Smart Cockpit & Convenience Features

- **7-Inch TFT Display & SYM+ App:** Features a 7-inch full-color TFT display that provides essential riding data alongside real-time ambient temperature. The new JET X was equipped with SYM+ App, which offer: Google navigation, instant message and incoming call notifications right on the dashboard.
